

6TH INTERNATIONAL CONFERENCE ON

Public Health and Well-Being 2024

Conference Programme

17 – 18 SEPTEMBER 2024
KUALA LUMPUR, MALAYSIA

MESSAGE FROM THE CONFERENCE CO-CHAIR

Welcome to the 6th International Public Health and Well-being Conference held in Kula Lumpur, Malaysia in 2024. The theme of this year's conference is: "Building Resilient Communities: Promoting Health Equity and Well-Being". The papers included are from Presenters at the conference who come from many countries and are on a variety of topics related to health risks, public health measures of disease prevention and treatment.

Public health measures to reduce risk and prevent disease continue to be challenged even though the major health advances in the past century, such as vaccination and the reduction of smoking were accomplished through the advancement of public health related research and treatment. But, largely for political reasons the anti-vaccine or "anti-vaccers", as they are called, continue to organize and disseminate papers through social media or non-peer reviewed journals that ignore scientific findings such as the rise in deaths related to a lack of gun control or overdose deaths from psycho-active drugs.

There are many challenges and much work to do for those of us who have chosen to work in the field of public health. It is largely that by continuing our work and sharing our findings through meetings like this that we will be able to further protect and secure the public's health.

Professor Sally Guttmacher, PhD

Emerita Professor at Public Health

New York University, USA

Senior Technical Advisor: Community Rising Africa Network

MESSAGE FROM THE CONFERENCE CO-CHAIR

Dear Colleagues,

It is my honour to welcome all of you to "The 6th International Conference on Public Health and Well-being 2024", 17th - 18th September 2024, in Kuala Lumpur, Malaysia. In this event we gather our ideas and spirit for the future better health and wellbeing.

Health and wellbeing are more than just the absence of diseases. Indeed, it covers the physical, mental, emotional, and social aspects of life that contribute to the overall quality of living. Through this conference, we will discuss how to improve the quality from those holistic approaches. We will share the possible solution for the obstacles that we have encountered in our daily practice. Moreover, our colleagues as the presenter in this conference come from researchers, academician, and policy makers will enrich the perspectives of health and wellbeing from both scientific and practical perspectives.

I would like to say thank you to all organizing committee for their invaluable efforts in making this event possible. I am also grateful to all of participants and presenters who have taken the time to share their research findings, thought, and bright ideas.

Finally, I hope all participants will find the conference enjoyable, and this conference will also open the door and the opportunity to collaborate and enhance our network in the future.

Regards,

Prof. Dr. Hardisman Dasman,

Professor in Public Health and Community Medicine,

Faculty of Medicine, Universitas Andalas,

Indonesia

MESSAGE FROM THE ACADEMIC PARTNER

Ladies and Gentlemen, Distinguished Guests, Esteemed Colleagues,

Good morning and a very warm welcome to "The 6th International Conference on Public Health and Well-being 2024." It is a privilege to welcome all participants of the conference as we gather here today. We will discuss and share our thoughts for the better public health and well-being.

Participants and presenters will share their latest research findings which will be the basis for the discussion and learning for better health and wellbeing. However, I believe this conference is not just an opportunity to learn together, it is an opportunity to all of us to open future collaboration to make healthier wellbeing in the future.

Finally, I would like to extend my heartfelt thanks to our partners and the organizing committee, whose tireless efforts for conducting this conference. I would also like to thank each and every one of you for your commitment to public health and for taking the time to be here with us. Your presence is an importance of the work we do and the impact we can have when we come together with a shared purpose.

I am confident that the discussions and exchanges that will take place over the next few days will contribute significantly to the advancement of public health and well-being. Let us seize this opportunity to inspire one another, to learn from each other, and to strengthen our resolve to create a healthier, more resilient world.

Thank you, and I wish you all a fruitful and engaging conference.
